

Innovation through experience

RP-4500

for the retailing point of sale

RP-4500 is designed to work in the harshest environments and combines exceptionally powerful performance with a small footprint and outstanding good looks.

Generously equipped with ports for peripherals such as scanners and printers, RP-4500 can offer flexible systems tailor-made to individual requirements. Its long-life, die-cast aluminium housing and easy-maintenance removable hard disk contribute toward its low cost of ownership

- Low power Pentium 4 processor
- Choice of integrated customer displays
- Integrated wireless LAN
